## **CUBE MANAGEMENT ANNOUNCES PARTNERSHIP WITH THE RÉSUMÉ GROUP**

Today Cube Management announced they have established a strategic partnership with The Résumé Group. The alliance between the two companies will give Cube Management a powerful new tool to help candidates set themselves apart from the pack with high-impact résumés and cover letters designed to help them achieve career goals. "We're very happy to have the opportunity to offer this kind of service to our clients," says Wayne Cozad II, Founder and Managing Partner of Cube Management.

The Résumé Group, an executive résumé writing and job search strategy firm based in Kansas City, Missouri, offers more than 25 years of combined résumé-writing and search strategy development experience. Their goal is to help candidates differentiate themselves in today's competitive job market, and arm them with the right tools, including keyword-rich résumés that effectively promote, brand and market each candidate's unique skills.

According to Sue Sarkesian, Managing Partner of The Résumé Group, "In today's job market, it's not about fitting in, it's about standing out. First impressions are everything. Your résumé has to tell a potential employer who you are, what you can do, and why you are the 'must-have' candidate, all in less than 30 seconds. You have to showcase your strengths and achievements in a way that compels a hiring manager to pick up the phone to find out more."

Cube Management is a leading recruiting and consulting partner to mid-market and emerging growth companies in the high-tech, manufacturing, health care and business services sectors. Cube Management helps companies ignite new sales and fuel new revenue by providing the top Sales & Marketing and Business Development talent companies need in order to reach revenue and profit objectives.

By partnering with The Résumé Group, Cube Management adds a proactive and empowering instrument to their arsenal of commitment, strategy, process and people to help companies identify the right candidates with the skills that will help them achieve - and sustain - revenue and profit growth.
